

2022 Paul VI Volleyball Tryout Plans

Tryouts can be extremely stressful for many players as well as coaches. As coaches we commit to each player that we will give everyone an opportunity to demonstrate the skills necessary to be a part of our program. Unfortunately, not every player who tries out will make a roster. If everyone who has indicated an interest in volleyball were to show up on August 12, we would have 99 players looking to fill an estimated 45 spots!

We will make every effort to speak to each player after tryouts end but with these numbers it is difficult, but we will try our best. There simply isn't a good way to tell them potentially bad news. We ask that parents be aware it may be a tough ride home Saturday afternoon or evening. We will chat with each player in a manner that will permit them to leave the building without having to face others waiting to speak to a coach.

As you will see the schedule can create some transportation issues, especially for those younger players who don't drive. Please read and understand the session sequence and times involved. We apologize ahead of time for any inconveniences, but this approach has worked well for us in the past and we feel it gives all players the best possible environment to succeed.
